

CALL FOR PAPERS

JOURNÉES D'ACTUALITÉ DE LA RECHERCHE ARCHÉOLOGIQUE EN ARDENNE-EIFEL

17-19 APRIL 2025

STATION SCIENTIFIQUE DES HAUTES FAGNES
ROUTE DE BOTRANGE
137 B-4950 ROBERTVILLE (BELGIQUE)

The main aim of the **Journées d'Actualités de Recherche sur l'Ardenne-Eifel** (JARAAE) is to transform the Ardenne-Eifel massif into **a genuine bridge between the four countries** it crosses, facilitating exchanges and collaboration between researchers. Despite the artificial borders that can hamper the implementation of cross-border programs, this coherent geographical area offers significant potential for the development of joint research. The **JARAAE** is a biannual gathering of researchers, with the intervening year dedicated to the publication of the proceedings.

Co-organized by the **Centre ardennais de recherche archéologique (CARA)**, the **Station scientifique des Hautes Fagnes (ULiège)** and with the support of the **Service d'Archéométrie - Archéologie médiévale et post médiévale (ULiège)**, these international news days focus on a geographical theme: the massif and its margins. The approach is resolutely **diachronic** (from the Palaeolithic to contemporary times) and open to **disciplines related** to archaeology (history, toponymy...). In addition to papers and posters, the colloquium will provide ample opportunity for discussion, with a view to encouraging exchanges and the development of cross-border research projects.
